Subject: NPU: Off to Arop Friday morning

Dear Praying Friends,

The Brief Version:

- * **Praise the Lord that our luggage with the translators' computers arrived yesterday, and everything was still in it.**
- * **Our local airstrips are still closed.**
- * **Nathan Miles and I plan to fly past our village to Vanimo (near the Indonesia border), then take a 4-hour boat ride to the village on Friday.**

More things to pray for:

- * **Safe flying and boating! Calm seas would be welcome.**
- * **That our village friends will be waiting for us with the boat in Vanimo as arranged.**
- * **That Nathan and I can get to the village on Friday afternoon and get settled in quickly.**
- * **That Nathan and I can get all the teams' computers ready with the new software by Monday.**
- * **That I can prepare well to begin the software training Monday.**
- * **That as the translators begin using the new software, Nathan and I can identify ways that the software can be improved.**
- * **That ("Radio Mercurial") will work well. This is the key thing our team needs--the ability to send just the changes to the translations across our HF radio email link.**
- * **That Nathan and I can make Radio Mercurial easy for Emil to use.**
- * **For travel connections out of the village for Nathan on March 23rd, and for me on April 9th.**

Thank you for praying!

Serving our King together,

John Nystrom

P.S. I will try to set things up so Bonnie can forward to you updates during my time in the village. If not, Once I get to the village
